27 November 1970

MEMORANDUM FOR THE RECORD

SUBJECT: Trip Report 12-23 November 1970

1. Location and Purpose of Visit:

25X1 C/AMS/OSA, and the undersigned
conducted the Aero Medical Staff visit to Detachment H
from 12-23 November 1970. During this visit the second
S1010 PPA's [redacted] were fitted and dis-
cussions were held with the Detachment H Manager,
[redacted] on the operation of the Life Support
Section.

2. Results of Visit:

A. The four (4) new full-pressure suits seemed
to be much improved with respect to fit in all but
one area, that of the booties being too small. This
boot problem has since been resolved and new larger
size booties are to be placed on the suits in the
field. Incorporation of "J" adjustments which pro-
vide for increasing and decreasing sizes similar to
the old partial pressure-suit adjustments are
responsible for the most part in this improved fit.

GROUP 1
Excluded from automatic
downgrading and
declassification

B. The training tower for water training and tree let-down training is now completed beside the swimming pool and will serve as quite a realistic training device.

C. The first RQ 225 parachutes arrived with the tree-lowering device installed in the lumbar pad and this modification was discussed with the pilots.
